

STAR

I choose to do a star because we're talking about stars and space in science, so that was the first thing that popped into my head.

$$1)y=-2/1X+6$$

$$2)y=-2/-1X+6$$

$$3)y=-1/1X-9$$

$$4)y=-1/-1X-9$$

$$5)y=-2/1X+0$$

$$6)y=-2/-1X+0$$

$$7)y=-1/-2X-9$$

$$8)y=-1/2X-9$$

$$9)y=1/1X-3$$

$$10)y=-1/1X-3$$
